Interested in learning more about Bridge to the Future?

Since the start of the pandemic, more than \$2M has been raised for Bridge to the Future, helping hundreds of students continue their Marquette education.

“This has been the hardest year of my life, and it means the absolute world that I received this scholarship. It helps not only me, but my mom as well due to the recent passing of my dad, and I could not be more grateful to be able to continue my education here at Marquette.”
– Health Sciences student
